GranCabrio

The Others Just Travel

GranCabrio is an invitation to live life to the fullest. An exclusively Italian interpretation of driving through life with the top down.

A passport to Pure Pleasure. For those who want to savor the best life has to offer. For those who crave grand tours that are all about enjoying every moment to its fullest. The new GranCabrio is an icon evolved.

A modern enigma resolved: a finely tailored balance of tradition and innovation, raw track-bred engineering and Italian elegance. GranCabrio represents this duality in its most essential and liberating form.

Grand Touring Attitude. An invitation to live open. The GranCabrio is the ultimate expression of open grand touring – athletic yet refined, flowing and bright.

Let a new journey begin.

GranCabrio
