

MASERATI **DRIVING
EXPERIENCE**

GT Am

WARM UP ON TRACK.

Spend half a day on the track and experience the excitement of driving the two most powerful Maserati models around the technical circuit of Varano de' Melegari.

The journey will be a fascinating one, where you will be given personal insight and learn the secrets of racetrack driving through the cutting-edge performance of the GranTurismo Trofeo and the MC20 - both powered by the V6 Nettuno engine.

With the support of our professional team of instructors, you'll learn how to master the car. And to enhance your driving skills even further, for 2024 there are two new activities: the quality drive contest with telemetry data and a training program with driving simulators.

The GT Race Simulation on board the MC20 super sports car driven in race mode by professional drivers, will give a taste of true GT racing and top off your day on the track.
